EXECUTIVE SUMMARY SHEET
CITY OF SAN DIEGO

DATE ISSUED: _____ REPORT NO: _____
ATTENTION: Council President and City Council
ORIGINATING DEPARTMENT: General Services
SUBJECT: Asphalt Overlay Group II, FY 08
COUNCIL DISTRICT(S): 1-8
CONTACT/PHONE NUMBER: Mary Wolford, (619) 527-7515

REQUESTED ACTION:

Authorize funding, advertising and award of the construction contract.

STAFF RECOMMENDATION:

Approve the requested actions.

EXECUTIVE SUMMARY:

This asphalt overlay contract is one of five FY 08 street maintenance contracts and will provide for the repair and resurfacing of 17.1 miles of asphalt streets. To allow for more efficient routing by the contractor and better pricing, this contract includes streets primarily north of Interstate 8. Of this total, 9.7 miles are part of the City's Street Maintenance Program for FY 08 and 7.4 miles are part of the City's Utilities Underground Program in partnership with the Engineering and Capital Projects Department. Locations for the Annual Street Maintenance Program are chosen through the use of pavement condition surveys, and the City's pavement management system using the following criteria: age, oxidation, cracking, amount of patching, street classifications and average daily traffic, and avoiding conflict with any planned underground utility work. Failed areas of the pavement will be removed and repaired prior to resurfacing and asphalt adjacent to curbs and gutters will be milled down to maintain proper curb heights and drainage. Approximately 17,100 tons of asphalt will be removed and recycled for use in other street maintenance activities. This overlay project will incorporate as a pilot program, a new environmentally friendly process to rehabilitate a limited number of old and deteriorated streets. This process, known as "Cold In-Place Recycling", will recycle the existing broken pavement by mixing it with special chemical additives to produce a new, smooth pavement surface. The streets selected for this process typically have a large amount of cracks and surface distresses. This contract also includes the installation of curb ramps, which will be placed at affected locations in compliance with ADA requirements.

The list of streets in the resurfacing plan for FY 08 is attached, but may be revised prior to award of contract in order to avoid any construction conflicts. Construction for this project is expected to begin in June 2008, and take approximately 4 months to complete. In addition to the construction contract costs of \$9,555,378 and the project contingency of \$191,108, the following administrative costs are also included: \$95,294 for project management, \$167,219 for construction management, for a total project cost of \$10,008,999.
